OF AGRICULTURE

SPECIAL

(To be used during week of July 21, 1941)

Here's a reminder to get out your aluminum pots and pans. The aluminum collecting committee in your neighborhood will be around early this week to pick up all the aluminum utensils you can give. The nation needs aluminum for defense. You can cook with utensils made from other material, but for defense, nothing can take the place of aluminum. All the millions of pounds of aluminum contributed this week will be used directly in defense----and the money which the aluminum brings will go into a fund to be used for civilian defense. That means you can make a double contribution to the safety of our American homes--by giving aluminum this week.
